Fertility - All bulls underwent a full fertility evaluation in October/November (Chrisman) or January (Martin) by our respective veterinarians and scrotal circumferences were measured at that time with a tight tape.

* Actual scrotal on fall bulls taken 10/29/18 - add 3 cm to adjust to sale day

** Actual scrotal Chrisman 2 YO bulls taken on 11/15/18 - add 1.3 cm to adjust to sale day

Roundtree Heifers

March & April born, SimAngus sired heifers
33 hd avg 803 lb on 1/30/19
